

# ***Why Rosemount 8800 Vortex***

---

- 1. All welded design – no gaskets, no crevasses
- 2. No mechanical moving parts
- 3. No need to shut down process to change sensors (flow and or temperature), if needed
- 4. On board meter verification
- 5. One sensor fits ALL meter sizes
- 6. Reducer Vortex has the same face-to-face as regular line size.
- 7. Available in threaded design to easily replace turbines
- 8. Available with up to 1500 lbs ANSI pressure rating
